

**STONHARD®**

**Installation Safety Program**

# STONHARD®

 **liquidelements™**  
artfully poured floors™ a brand of **STONHARD**

As the market leader in the installation of seamless polymer floor, wall and lining systems, Stonhard recognizes the risks inherent in new construction and renovation projects. We never leave the safety and security of employees, installation teams and other on-site trades. We always take job site safety and proper training seriously.

## **Knowledge is power**

A safe and effective installation begins with a thorough understanding of safety procedures, product characteristics, equipment operation, job site conditions and specific customer site requirements.

## **Prevent costly delays**

Effective organization and planning will prevent costly project delays. Appropriate safety documentation and ongoing communication helps ensure an uninterrupted, hassle-free installation process.

## **Safety resources make the difference**

To ensure that every installation is completed safely and efficiently, Stonhard developed a comprehensive set of safety resources. We've highlighted these resources for you here. Also, a team of safety experts is available at any time to answer questions or concerns that may arise.

# Stonhard's Installation Safety Resources

- Process Safety Management (PSM) for Contractors
- Employee Training / Competent Persons
- Alcohol, Drug & Substance Policies and Screenings
- Product-Related Health Information
- Tool Box 5-Minute Safety Talks for On-Site Training

## Industrial Hygiene Air Sampling Test Results

Air quality is a major concern on new construction and renovation projects. Stonhard utilizes the services of certified industrial hygienists across the country to obtain detailed summaries of air sampling test results. Contact Stonhard's EH&S Department for a current copy of completed test results.

## Safety Data Sheet (SDS)

Access to all Stonhard product SDS is available through the corporate website or through your local Stonhard Sales representative. Our SDS meet and/or exceed the United Nations Globally Harmonized System of Classification and Labeling of Chemicals requirements and are available in 16 languages.

## Site Specific Safety Plans

Stonhard's EH&S staff regularly develop plans that specify the minimum health, safety, and emergency response requirements to be followed by Stonhard personnel and our subcontractors during the construction activities of a particular project. These plans include a detailed Job Hazard Analysis, designation of EH&S responsibilities, a description of the Stonhard products and necessary protective measures, and any additional information that may be required by the customer or general contractor.

## Environmental Health & Safety (EH&S) Department

Stonhard provides a fully-staffed EH&S Department committed to safety – from project inception to final walkthrough. A complete list of staff contact numbers is available from the corporate office to ensure ready access to all business and emergency numbers at Stonhard.

Stonhard is committed to project site safety and customer satisfaction on every project – across the country and around the world. Find out why Stonhard is the world leader in high-performance, quality floor, wall and lining systems.

## CUSTOMER SATISFACTION FROM START TO FINISH

Stonhard is dedicated to complete customer satisfaction.

We offer a single-source warranty covering defects in materials and workmanship for a period of one full year from the date of installation. Our sales offices are located in principal cities throughout the world to assist you in product evaluation, material selection and to provide on-the-spot technical assistance.

The following literature and technical information is available upon request:

- Product Data Sheets
- Chemical Resistance Guides
- Installation Instructions
- Floor Maintenance Guide
- Safety Data Sheets
- References and Case Histories
