

DURABLE WASTEWATER LININGS: PROTECT & PRESERVE YOUR INFRASTRUCTURE

Stonhard's Stonchem® high-performance linings are formulated to provide long-term solutions for water and wastewater treatment facilities.

PRODUCTS & INSTALLATION

Experience the ease and value of working with a turnkey company. We formulate your product and manage your installation with more than a century of product knowledge and construction management expertise.

THE PERFORMANCE YOU REQUIRE

Prevent deteriorating infrastructure with products that stand up to corrosion and abrasion. Meet regulations and minimize public scrutiny and safety concerns. From headworks and clearwells to clarifiers, digesters, secondary containment, and more, we are your experts in water and wastewater environments.

Corrosion Resistant

Chemical Resistant

Abrasion Resistant

High Strength
